

MODS

Date _____ Lead _____ Crew today _____
Pickup _____ To finish today _____ orders

1 · IN ORDER
Build #1, then #2, then #3 — the office sets the order. Don't skip ahead.

2 · START
Write the time in **Start** the moment you begin a job.

3 · DONE
Write the time in **Done** when it's finished — not later, not in a batch.

4 · STUCK?
Write the **code** below in Problem and **tell the office right away**. Don't wait for the check-in.

TODAY'S ORDERS Copy tag names in build order from the office list. Write the time, e.g. 9:40.

#	TAG NAME	MODS		PROBLEM CODE

COUNT CHECK-INS How many mods done so far today

STATION	9:30	11:30	1:30	4:00
Framing (frames)				
Staging (finished mods)				

Running total since the start of the shift, not since the last check-in. The office collects it at each time and updates the TV.

PROBLEM CODES

1 Material shortage

2 Machine down

3 Rework / wrong cut

4 Waiting on another dept

5 Missing info / paperwork

6 Short-staffed

7 Order change

8 Other — write it

Bad part from another department? Write **Q**, the department and what's wrong (e.g. *Q · Panel · 2" short*), and bring it to the office.

V4T

Date _____ Lead _____ Crew today _____
Pickup _____ To finish today _____ orders
